

Schools will use CICS Application SUPP at the start of the school year during the Supplement Batch Process for handling multiple employees. After the supplements are posted to the Personnel Database any additions or deletions to individual employees are handled through the SUPPLEMENT RPA screen in CICS application PERS.

The Supplement Setup System **cannot** be utilized for the following situations:

- *if it is questionable whether or not an employee will perform the supplemental duty*
- *Athletic and Coaching Supplements with the exception of Athletic Directors, Business Managers, and Trainers are processed as a lump sum payment upon conclusion of the sport. **These will be paid through another process starting November 2020.***
- *JROTC supplement is entered at the District level and requires no action by schools.*
- *Supplements requiring an approved waiver must be submitted on the Supplement Waiver Request Form, FM-4509 Rev. (08-09). This form must be used when requesting the following:*
  - ***Extra Teaching Period Supplements (ETPS) which do not meet contractual provisions***
  - ***A teacher is to receive two Extra Teaching Period Supplements. The first ETPS should be submitted through the AUTOMATED SUPPLEMENT SETUP SYSTEM.***
  - ***A teacher is to receive more than three extra duty salary supplements. The first three supplements should be submitted through the AUTOMATED SUPPLEMENT SETUP SYSTEM process. ETPS are exempt from the three-supplement limit.***
- *Duplicate Supplement codes (i.e., two club sponsors)*

Supplement allocations are calculated each October using the school's FTE from the ISIS file. The top of the screen reflects the formula amounts used to calculate the ALLOCATION TOTAL. Each month the personnel database will be tabulated to determine supplement expenditures by category. Part-time employees submitted on the part-time employee supplement request form are reflected after approval and are encumbered against the school's allocation since these employees are not paid until the end of the school year.

Those schools that contract coaching supplements and submit payment through the pink part-time employee hired as a contracted coach form will see those payments reflected after paychecks have been issued to the part-time employee.

The TOTAL SUPPLEMENT FOR YEAR and ALLOCATION DIFFERENCE are monthly snapshots of the schools expenditures. An average expenditure report will be calculated in May to determine actual expenditures for the school year.

Schools that are participating in the Alternative Supplement Model program must ensure that this category does not exceed 15% of the ALLOCATION TOTAL.

## INSTRUCTIONS FOR THE ELECTRONIC RPA SUPPLEMENT

After salary supplement are posted to the Personnel Database from the Supplement Batch Process all supplement requests must be submitted on the Supplement RPA Screen beginning on October 4th, 2010.
